

ANATOLII DO

Ethical Hacker, System Administrator

Dedicated and inquisitive cybersecurity enthusiast with hands-on experience in computer networking, ethical hacking, and software development. Currently, pursuing a Bachelor's degree in Computer Science (spec. Computer Systems and Networks). As a part of Blue team, have conducted forensics on real security cases. As a part of Red Team, have participated in CTF team events, contributing my knowledge on pentesting best practices and showed excellent cooperation with other hackers. Proficient in a variety of scripting languages and security tools. Passionate about identifying and mitigating security vulnerabilities to make digital world a safer place. At the moment, seeking for a full-time role in cybersecurity.
